About SLAI

01

Located in the heart of the Guangdong-Hong Kong-Macao Greater Bay Area, Shenzhen Loop Area Institute (SLAI) is building a new generation of AI leaders through its distinctive 3I talent-development model - International, Interdisciplinary, and Industrial. Drawing on world-class research resources, cross-border innovation capabilities from Shenzhen and Hong Kong, and leading-edge industrial ecosystems,SLAI delivers an internationally-oriented doctoral-training environment featuring solid academic foundations, real-world impact, and deep academia-industry collaboration.

3i

International

- Integration within the Guangdong-Hong Kong-Macao Greater Bay Area
- Collaboration with world-renowned scientists
- High-standard international academic system
- First-class AI infrastructure

Interdisciplinary

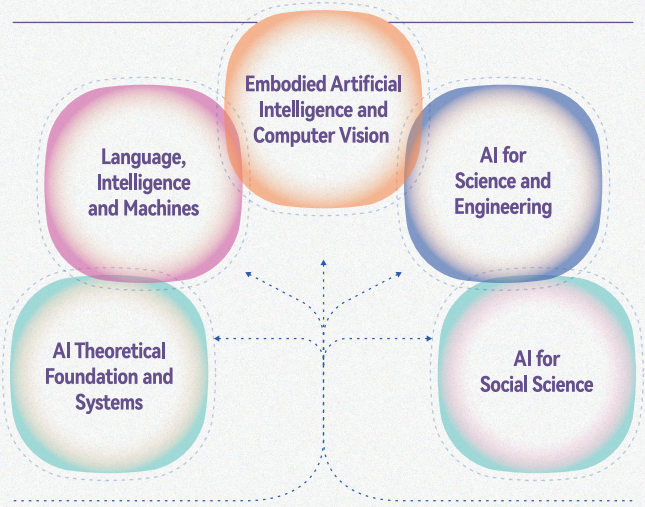

- Applied Artificial Intelligence
- Fundamental Artificial Intelligence
- Core Artificial Intelligence
- Theoretical Artificial Intelligence

Industrial

- Industry mentors
- AI training and practice bases
- Dual-track research projects bridging academia and industry

Five Research Centers 02

Focusing on global cutting-edge research and industrial demands, SLAI has established five research centers.
